Expanded system - includes additional monitors and door stations

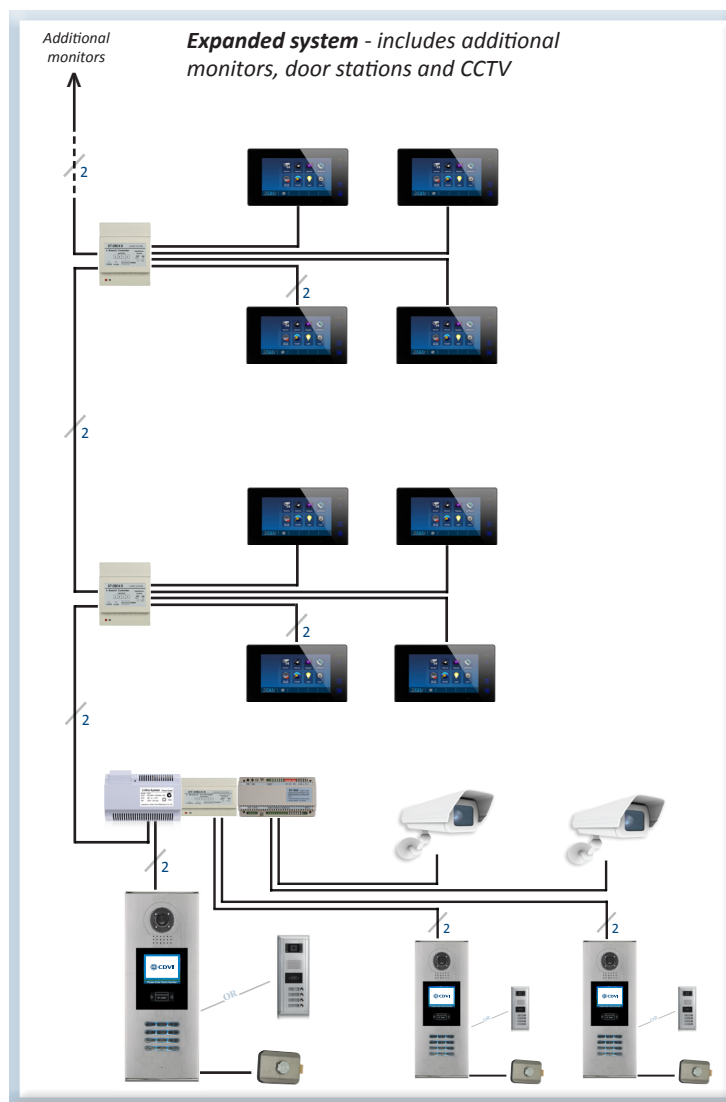

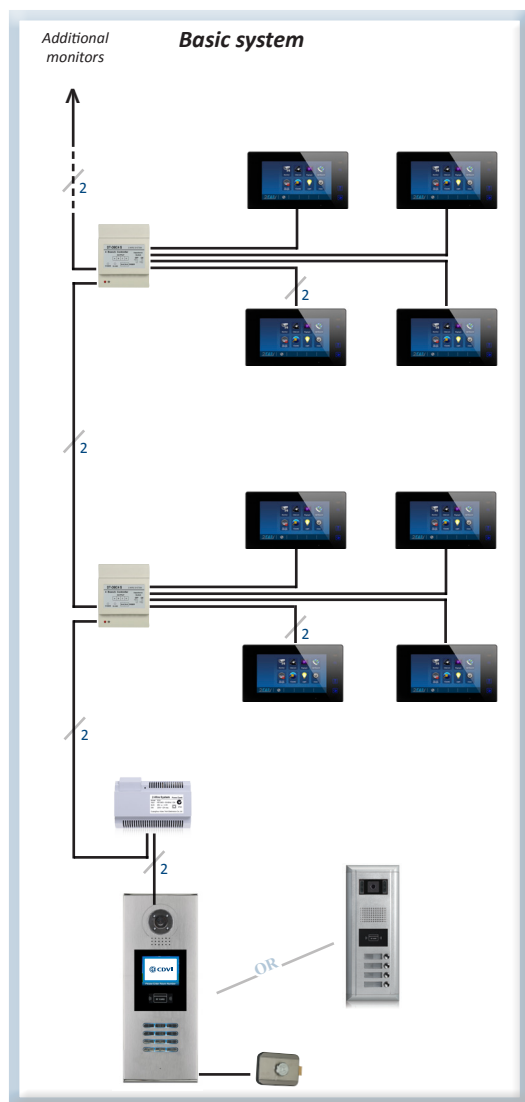

- Simple 2-wire system throughout
- Non polarised, uncomplicated
- Reduces installation time and potential for errors

A combination of door entrance stations and handsets/monitors can be installed to a maximum of 4 entrances and 4 handsets/monitors.

SYSTEM LAYOUT - MULTIWAY VIDEO ENTRY

2EASY

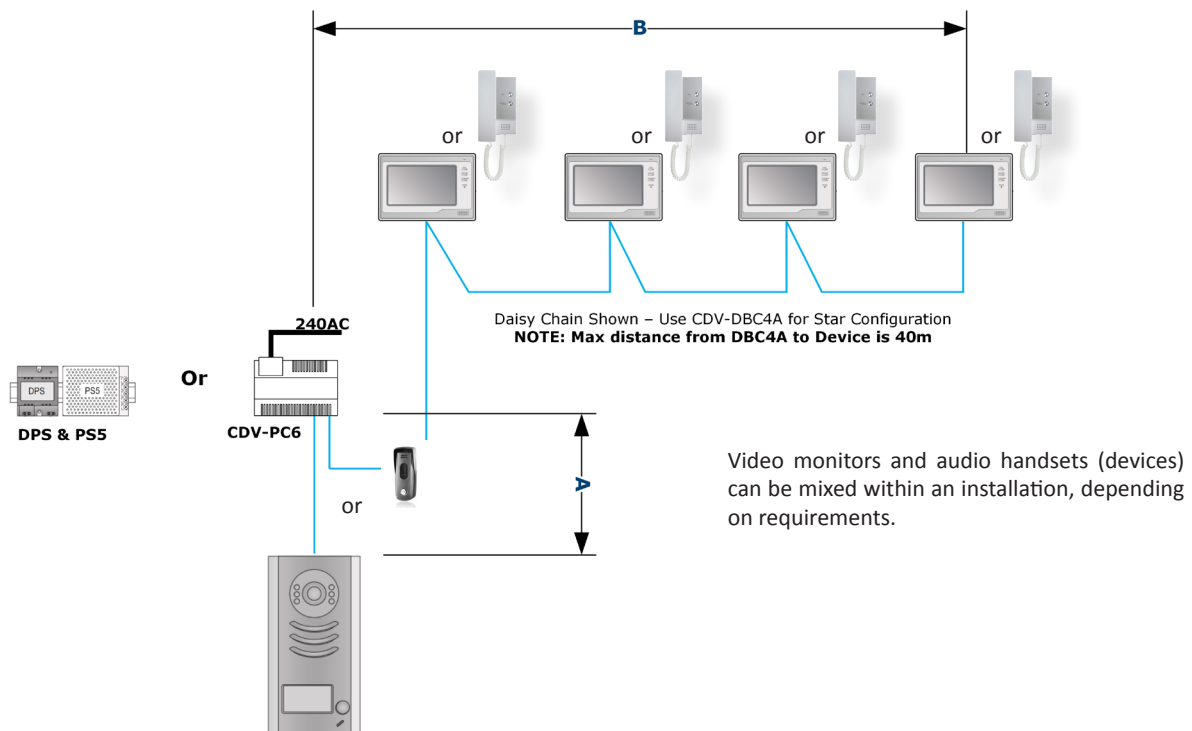

Important note **

For optimum clarity of speech and video, it is strongly recommended that this system is installed using a twisted-pair cable (e.g. type UKC8741). In most cases, cable length restrictions should not present a problem, however where longer lengths are required please refer to CDVI technical for advice. Connect all items by following the wiring diagrams supplied with the products.

UKC8741

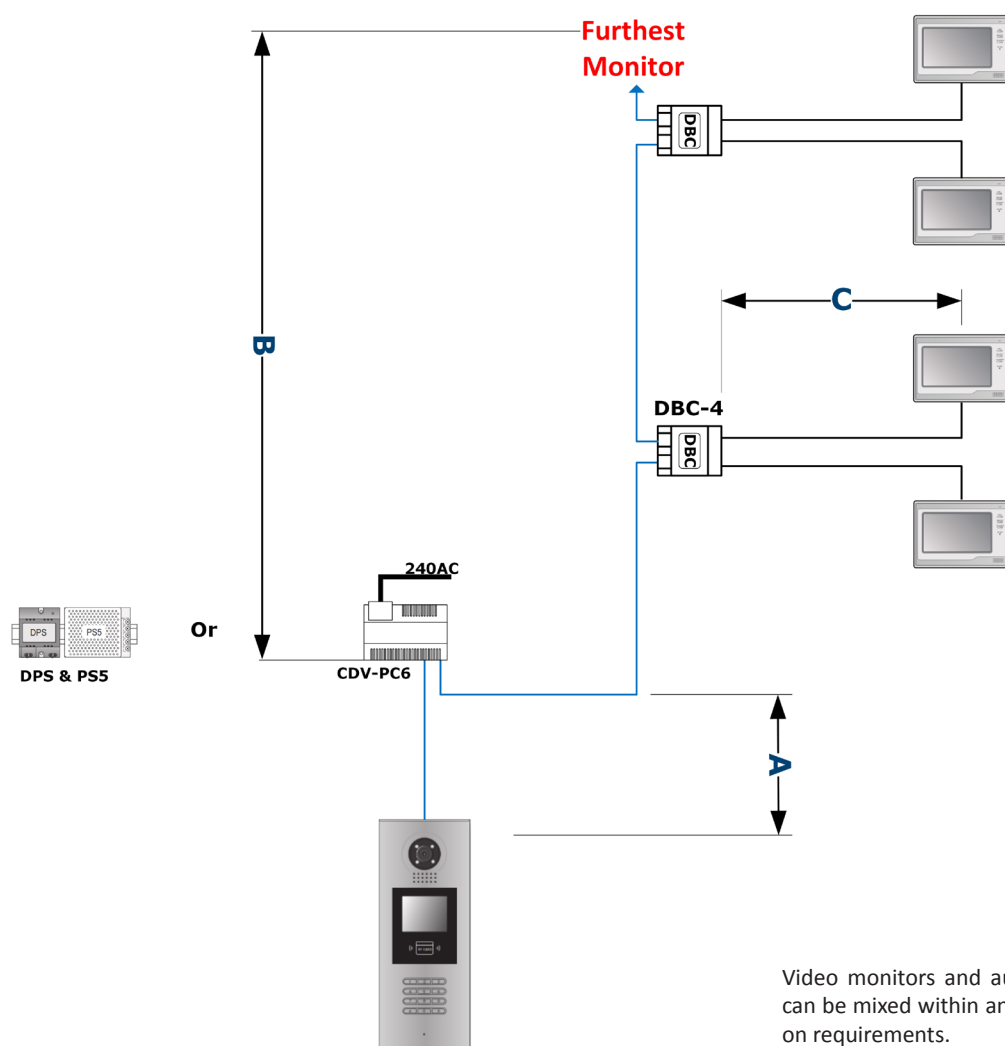

WIRING DETAIL - 1 & 2-WAY VIDEO ENTRY & AUDIO ENTRY

Cable Type	A Max	B Max <2 Internal Monitors	B Max <8* Internal monitors
Belden 9740 - 1 Twisted Pair 0.79mm ² 	60m	100	40m
